POLE HOG

Pole Stump Removal System

- If you have a pole splintered or at ground level this is a solution to remove the stump in one piece!
- Eliminates having to use a backhoe or driving a rod into stump with winch line and there is no need for a pole jack.
- Save time and create a safer work zone when removing a pole plus create less stress on the boom truck.
- Removes pole stumps in one piece by simultaneously spinning and pulling.
- No need for backhoes, rods, jacks, or pullers for pole stump removal.
- Relieves stress on boom trucks.
- Does not widen original hole.
- Works in mud and rock.

THEIRS vs OURS

*Distribution size poles

Competitor Pole Jack	Pole Hog
Blows seals & scores cylinder	Nothing to break
Pole must be minimum 14" out of ground	Pole can be above or below ground level
In general very limited	Many capabilities

Remove Pole Stumps with Ease With Our NEW Pole Hog
