

# PRECISE MACHINE WORKS

## Split Barrel

The Split Barrel is the perfect solution to keep your auger hole clear from cave-ins. Unlike other products on the market the Split Barrel can be used more than once, making it a great economic choice for your next dig.

- Solves the problem of open or unattended holes
- OSHA compliant when used with lid
- Proudly Made in the U.S.A.
- Lid for Split-Barrel is optional

**The Split Barrel is a MUST HAVE tool in poor ground conditions**
